

Mechanical & Electrical Facilities & Maintenance Internship

We are currently looking for an intern to work within our Facilities and Maintenance Team. You will currently be working towards an engineering degree / HND / HNC and looking for practical experience in engineering.

Your duties will include:

- To maintain all mechanical and electrical equipment at the site, liaising with third party suppliers where appropriate, including (but not limited to) the vertical cable car, CCTV, heating / cooling (HVAC), AV / sound system, Fire systems, Intruder alarm systems, access control system etc.
- To complete the daily start up checks and cleaning for the vertical cable before the start of the daily operation (including climbing up ladders to reach the basement or top of the tower).
- To support the Facilities and Maintenance manager when required with the management of a number of key third party facilities contracts including (but not limited to) Poma, remote monitoring/ security, CCTV, IT support and rope access to ensure they comply with the terms of service level agreements.
- To collaborate with the Operational team, Sales team and Procurement Manager to ensure the smooth running of the operation.
- To assist in the monitoring of all faults and any ride downtime.
- To assist with the completion of preventative maintenance schedule.
- This list is not exhaustive, the role may evolve over time. A flexible and willing attitude is vital.

Who we are looking for:

- You will have the ability to react well under pressure and to stay calm and rational in emergency situations.
- You will have the aptitude to learn new systems, understand technical manuals, and you will enjoy technical problem solving and being an expert in systems.
- You will be a team player with great communication skills, with a hands on attitude, willing to muck in and to help out to make sure that the venue stays open and the operation runs smoothly at all times.
- You must be a self-starter who is able to work without direct day-to-day supervision, but equally you must be a team player able to work effectively with colleagues at British Airways i360, at our suppliers and broader team.
- A full passport with the right to travel to Europe without needing a visa.

- This role requires a high level of physical fitness, as it involves manual handling and climbing on ladders. Therefore, you will be required to pass a fitness test, occupational health screening and medical assessment.

This is a fixed term position for up to three months.

Salary: £18,200.00 /year

If you feel you would be a great fit for our team please send a CV and Covering Letter to jobs@britishairwaysi360.com explaining why you would be perfect to join our team.
